

Aeg power solution Mali

What power systems does AEG offer?

AEG offers the following power systems for the offshore industry: Building block design UPS Protect 8 is the only customised solution for your specific offshore power equipment requirements

What makes AEG a good power supply & Charger?

Also available in earthquake-proof execution (qualified for nuclear power plants). AEG's latest generation of robust, industrial rectifiers, chargers and DC Systems use both analogue and proven microprocessor controlled thyristor technology to provide high-reliability power supply and battery charging capabilities.

What is AEG protect MIP?

AEG's latest generation of products are made robust by using proven microprocessor controlled thyristor technology to provide high-reliability power supply and battery charging capabilities. The Protect MIP offers a new way of achieving reliable and cost-efficient protection for all offshore applications.

What is AEG protect 8?

AEG's brand new modern Protect 8 is a true on-line double conversion UPS, with low maintenance cost, reduced operating costs, air conditioning requirements and battery Ah requirements.
