

Customized processing container mobile house energy storage box

How can a mobile energy storage system help a construction site?

Integrate solar, storage, and charging stations to provide more green and low-carbon energy. On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions.

What is a mobile energy storage system?

On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions. Maximum safety utilizing the safe type of LFP battery (LiFePO₄) combined with an intelligent 3-level battery management system (BMS);

What is E-house (prefabricated electrical room) container?

E-House (prefabricated electrical room) Container is a prefabricated walk-in modular steel structure outdoor box that can accommodate medium voltage (MV) and low voltage (LV) switchgear and auxiliary equipment. It is often called PowerHouse or Power Distribution Center.
