

Energy storage portable insulation bag

What is a lithium safety bag?

The unique configuration of the Lithium safety bag consists of high temperature insulation & fire resisting materials that are able to withstand the explosive release of energy and cell combustion, as a result of a lithium ion thermal runaway. Intensively tested and highly customizable to any size or color.

Are 'safety bags' effective in a thermal runaway fire?

These bags are often made in Asia and although they market them as 'safety bags', these bags are absolutely not effective in containing the intense blaze of a thermal runaway fire. They are made of glass fiber filled nylon which burns so easily, that you might as well not add any form of protection.

Why is LithiumSafe a good battery bag?

The low rising of the thermal conductivity with temperature increase and minimal shrinkage at maximum temperature is also advantageous for the LithiumSafe containment bag. The material is shock resistant; it tolerates fast heating and cooling cycles for a long period of time, which is ideal in the event of a thermal runaway. RC LiPO battery bags?

Why should you buy a Creative Green Life cooler bag?

The thermal HD insulation provides amazing cold or heat retention so you don't have to worry if you're traveling long distances or making a few stops along the way. Tip: Be sure to zip the bag closed tightly for best thermal retention. Creative Green Life Cooler Bags are designed to be used throughout your busy day.

What is a green life cooler bag?

Creative Green Life Cooler Bags are designed to be used throughout your busy day. When not in use, conveniently fold-up and stash it in a drawer, cabinet or under the car seat. Ideal for grocery shopping, ice cold beverages, or hot takeout orders! Perfect Thermal Tote Bag for anyone on the go, yet stylish and versatile.

Does the smoke containment sleeve work with LithiumSafe kits/bags?

The Smoke Containment Sleeve is fully compatible with first-generation LithiumSafe Kits/Bags and can be added as an upgrade to eliminate any release of smoke--without replacing your existing equipment.
