

Fluence's exhibition stand at this year's RE+ event in California, US. Image: Andy Colthorpe / Solar Media
John Zahurancik, president for the ...

Less than a year after introduction, the first Fluence Cubes are being installed at the Luna Energy Storage facility in California.

Global battery energy storage system integrator Fluence is setting up a new contract manufacturing facility in Utah to serve the US market.

Modular form and digital intelligence enable gigawatt scale, improved economics and simpler deployment of energy storage Arlington, Va. ...

Large-scale fire testing and UL 9540A are needed to evaluate thermal runaway, fire propagation, and safety of battery energy storage products.

Fluence's backlog hits record \$3.7B as company focuses on domestic energy storage manufacturing Fluence is also on track to begin manufacturing battery modules at a ...

U.S.-based Fluence Energy has launched its latest grid-scale battery energy storage system (BESS) solution Smartstack, featuring an ...

Fluence Energy, an intelligent energy storage, operational services, and asset optimization software company, announced the start of ...

Fluence Smartstack™ Fluence Smartstack™ revolutionizes utility-scale energy storage by delivering embedded intelligence and unprecedented energy density in a revolutionary split ...

About Fluence Fluence Energy, Inc. (Nasdaq: FLNC) is a global market leader delivering intelligent energy storage and optimization software for renewables and storage.

With a presence in 30 global markets, Fluence provides an ecosystem of offerings to drive the clean energy transition, including modular, scalable energy storage ...

Fluence Energy Storage (Fluence ES) recommends that all BESS owners conduct orientation meetings with local first responders to ensure mutual understanding of Advancion component ...

Fluence is enabling the global clean energy transition with market-leading energy storage products and

Fluence energy storage module

services, and digital applications for renewables and ...

Eliminates the need for the giant cranes typically used for large 50-ton block storage, simplifying shipping and logistics. Installs faster than competing AC storage systems. Maximizes density, ...

As Chief Technology Officer, Brett Galura leads Fluence's technology selection, integration design, controls development and market & ...

Energy storage services company Fluence Energy has begun domestic US production of its battery modules at a facility in Utah. The battery modules will incorporate ...

The company recently announced an agreement with Excelsior Energy Capital to deploy 2.2 GWh of energy storage projects using domestically manufactured battery ...

Fluence Energy, Inc. is a global market leader in energy storage products and services, and optimization software for renewables and storage. With a presence in 47 markets globally, ...

With a presence in 30 global markets, Fluence provides an ecosystem of offerings to drive the clean energy transition, including modular, ...

Fluence is amongst the largest BESS providers globally. Image: Fluence Energy. Global battery energy storage system (BESS) integrator ...

Fluence offers an integrated ecosystem of products, services, and digital applications across a range of energy storage and renewable use ...

Fluence Energy, a U.S.-based company, has introduced its latest grid-scale battery energy storage system (BESS) called Smartstack. This innovative system is designed ...

Fluence has started building manufacturing battery modules for energy storage from a facility in Utah, which will incorporate battery cells ...

Nispera asset performance management (APM) software optimizes renewable and battery energy storage assets with real-time monitoring, automated ...

U.S.-based Fluence Energy has launched its latest grid-scale battery energy storage system (BESS) solution Smartstack, featuring an innovative design that facilitates ...

This marks a key step in Fluence's strategy to scale module production with domestically sourced components to meet increasing domestic demand for utility-scale energy ...

Fluence energy storage module

TL/DR - Fluence Energy has started domestic production of its battery modules at a facility in Utah, marking a significant step in the firm's strategy to grow module production ...

In an era of rapidly evolving renewable energy sources, grid stability and energy security pose significant challenges. The Fluence Gridstack is designed to enhance large-scale ...

Fluence began producing battery modules from its factory in Utah (pictured) last year. Image: Fluence. Fluence has taken a step forward in ...

Fluence Energy, the energy storage supplier jointly formed by AES and Siemens that now stands alone as a publicly traded company, has begun domestic manufacturing of its battery modules ...

The manufacturing plant will produce Fluence's Smartstack (pictured) and Gridstack Pro BESS solutions. Image: Fluence. Global energy storage technology and energy ...

Fluence Energy Inc (NASDAQ:FLNC) will be making its energy storage products at a new manufacturing facility in Utah so as to better serve ...

Energy storage leader Fluence has commenced production at a new manufacturing facility in Goodyear, Arizona, furthering its strategy to build a domestic supply ...
